Challenge 1 – Growing Diaspora presence

Need to re-strategize, revitalize and re-energize

Presently, global membership of the Church stands at 3,257,943 but the overall membership of the Church in Ghana is 2,566,818 (Two million, five hundred and sixty-six thousand, eight hundred and eighteen).

1. What is the Missions Challenge? - The COP Perspective

Ghanaianize Syndrome

The problem of the Ghana Church identity has both become a blessing and a curse.

Hence the Creation of Indigenous Churches.

The unintentional disconnect

The fact that every nation is “too” focused and concentrated in what they do alone.

Hence the need for global mobilization – the strength of numbers.

Outreaches
In 3 Years

For every year, there shall be 4 main mission outreaches to be organised quarterly.

This is so spaced in order that the target participants, who are the PENSA alumni working class, can schedule their annual leaves and other break periods for the outreaches.

Each outreach shall be massive, and shall tackle a number of nations for groundbreaking missions work, as well as a number of campuses for the establishment of PENSA.

For each mission, the nations to be so considered for groundbreaking missions work shall be provided in consultation with the office of the International Missions Director. These shall be either nations the CoP has not reached, or CoP nations with the need for expansion and revival. As much as possible, nations shall cover the expenses on outreaches held within them.
